- **Available now** — fractional, part-time & contract engagements, remote

SUMMARY

20+ years of technical search architecture, now focused on the wedge most senior operators haven't caught up to yet: earning citations inside AI Overviews and AI-native search. Recent work grew one client's GEO citations **178%** in three months — full results in Experience below. I operate as a one-person, full-stack marketing practice — strategy, content, and custom software — backed by a trusted specialist network when a project needs more hands.

EXPERIENCE

Independent Contractor — chrishornak.com

2016–Present

Freelance GEO/SEO strategy and web work outside my agency and studio roles — the umbrella for the free tools listed under Built & Shipped. Scaled organic traffic **500%** in 6 months for Gamma Light Therapy and drove a **92%** net sales increase for The Juicery at Oakmont in one quarter. Grew AI Overview/GEO citations **178%** in three months for Don Farr Moving.

Co-Founder / Principal Strategist — Swift Growth Marketing

Jun 2022–Present

Architect GEO/AEO strategy for B2B and e-commerce brands — Schema markup, Q&A-format content, and E-E-A-T authority plays engineered for AI Overview citations. Client work includes Rehab Essentials (full site rebuild with multisite architecture for university partners) and Speranza Consulting (brand, strategy, site build, and fact-checked content/social marketing reported plan-vs-actual monthly). Architected Scout, the agency's Claude-powered AI copilot — a detect → recommend → human-approve system spanning sales, delivery, and client support.

Founder / Owner — Blog Hands

Mar 2016–Present

Built and run a content agency serving **hundreds** of SMBs and agencies, delivering **261%** average YoY organic growth across Fintech, SaaS, Insurance, and Wholesale clients. Authored *Blog Genius* and built proprietary tools that automate AI-visibility audits and surface the “AI Visibility Gap” in client content.

Director of Operations — Eyeflow

Mar 2008–Jan 2016

Rose from junior web developer to Director of Operations, helping grow Eyeflow from a 4-person team on the brink of closing to a **\$1M+**, 12-person agency later acquired. Managed organic strategy across dozens of concurrent clients — including Giant Eagle, Hertz, DoubleTree, and The Art Institute — producing thousands of content pieces and links with consistent traffic growth. Founded the Pittsburgh SEO Group.

BUILT & SHIPPED

- **Findability Check** — chrishornak.com/audit

Free, no-signup GEO/SEO/AEO visibility scorer.

- **Blog Hands** — bloghands.com

Complete content-ops SaaS — dashboard, billing, and tools.

- **Local Audit** — swiftgrowth.marketing/tools/local-audit

Free Google Business Profile grader with competitor comparison.

- **Blog Post Grader** — bloghands.com/blog-grader

Free 7-category grader for readability, SEO, and AI-readiness.

All four are live and checkable in under a minute — no signup required.
